About me:

Experienced and highly resourceful developer with over 3+ years of dedicated practice in designing, coding, and optimizing PHP-based websites. Proficient in web application development utilizing PHP and MySQL Server, with a keen eye for detail and a passion for crafting seamless user experiences. Skilled in object-oriented PHP and adept at leveraging front-end technologies to enhance overall website functionality and aesthetics.

Beyond development, I am deeply engaged in teaching activities, sharing my knowledge and expertise with others to foster growth and innovation within the tech community. Committed to continuous learning and staying abreast of industry trends, I am eager to contribute my problem-solving abilities and collaborative spirit to a dynamic team, driving forward impactful projects and achieving collective success.

Key Achievement and projects completed from 2019:

- Complete the BS (computer Science) journey within 4 years.
- Complete FYP in ASP.NET MVC
- 15-days workshop in Career Institute
- Attending multiple online courses from online websites
- Attended web development workshop in Agriculture University Faisalabad
- Having 2 years freelancing experience on fiverr and upwork and complete many projects

Work Experience:

ADP Visiting Lecturer: November 2023 – Continue

Riphah International College, Faisalabad

- **Course Delivery:** Delivering lectures on [specific subjects/courses] to undergraduate/graduate students, ensuring content relevance and alignment with curriculum standards.
- **Curriculum Development:** Collaborating with the academic department to contribute to the development and enhancement of course materials, ensuring alignment with current industry trends and academic standards.
- **Student Assessment:** Designing and conducting assessments, examinations, and projects to evaluate students' understanding and progress, providing constructive feedback for continuous improvement.
